For further clarification, please see the attached Frequently Asked Questions and Answers.

Frequently Asked Questions and Answers

1. Is the program open to dependents of all officials including those in states other than Nebraska?
No, the recipient must be a dependent of an official registered with the NSAA and a Nebraska resident.

2. Who is a "dependent?"

For purposes of the scholarship, a dependent is your natural child, adopted child or legal step-child.

3. If my spouse is planning on going to school, would he or she be eligible?

This benefit is for dependents of officials. We recognize everyone's need for education. However, we realize this program could not be available to everyone without diluting the impact of those for whom it is truly intended.

4. Will special consideration be given to children with specific career goals?

We realize the dependents of officials have a wide variety of career goals and no special consideration will be given to any specific career. The scholarship program was not developed to aid any particular career path, but simply to provide assistance to dependents of officials in furthering their education.

5. What if my child will only be attending college on a part time basis or taking remote learning courses?

The program does not apply to part-time students or remote learning courses. Your child must attend an accredited college or university campus full-time.

6. What if the college costs are less than the scholarship amount?

It is unlikely this will occur. If it does, only an amount up to the actual eligible college costs will be paid.

7. Will special consideration be given to students from “needy” families?

A statement of financial need is required as part of the application. However, as outlined in the application, financial need is only one of the selection criteria for the scholarship. The Scholarship Committee will consider all items submitted and no single selection criterion is determinative.

8. What is meant by “statement of financial need”?

The applicant must submit a written statement regarding why he or she needs financial assistance to attend college, including the amount of support, if any, that is available from other funding sources.

9. Can more than one child from a family apply for and receive scholarships at the same time?

Yes.

10. If a student, once being selected for the scholarship, chooses to wait a year or more before attending school, will the scholarship still be theirs or will the student need to reapply?

The student will need to reapply and must meet the eligibility requirements at the time of re-application.

11. Does the student have to apply before they start their first year, or may they apply any time during their educational career?

The student must apply during their final year of secondary education.

12. What additional information is needed with the application?

An original transcript from the applicant’s high school(s) or other learning institution(s) must be sent directly to [address]. Official ACT or SAT scores and a statement of financial need must be included with the application.

13. What costs can the scholarship go towards?

Tuition, fees, books and other eligible expenses as defined by the Internal Revenue Service.

14. Does the student have to live on campus?

No, the student simply has to be a full-time student, attending a college or university anywhere in the US for on-campus courses.

15. How many scholarships will be awarded each year?

The Bill Lewis Scholarship Fund is an endowed scholarship designed to offer up to two (2) scholarships in an amount of up to \$500 each year. However, the Scholarship Committee may award scholarships of lesser amounts and may award more than two scholarships if funds are available.
